

GASLOW Marine LP Gas Systems and Lockers

Worried about the standards and approvals needed for storing and using gas cylinders on board boats?

Now this is no longer an issue with the Gaslow range of marine regulators and safety lockers.

Our marine regulators have been designed to meet the new EN 12864 - Annex M standard for marine use and are produced in either Stainless Steel or Zinc Alloy which have been specially coated both inside and out to protect them from the harsh salt air environment.

Both types of regulators can be retro-fitted to existing boats. Stainless Steel regulators **MUST** be used in marine lockers due to the confined space.

Only Gaslow lockers have a gas and watertight lid which seals completely with a simple turn of the handle.

They are built to the European Standard EN10239 and have been independently tested and approved by the European Certification Bureau Nederland.

They are simple to fit and, due to their flush deck design, can be quickly installed almost anywhere including the storage cabinet under the cockpit seating.

Connecting the locker to your gas system could not be easier. The locker comes with an 8mm compression outlet for connecting to your boat supply and a low pressure hose assembly which connects the Stainless Steel regulator to the locker outlet.

Fitting a Marine Gas Locker

Locker 01-3000 fitted by Tony Belden on his Yacht MIRIANNE

Picture shows the 01-3000 locker with a 01-3100 regulator fitted to a Calor 4.5Kg cylinder.

Locker comes with 8mm copper compression fitting

Supplied drain outlet adds 3cm to overall depth

Marine Regulator

01-3110	Stainless Steel Butane & Gauge
01-3100	Stainless Steel Butane

Low pressure regulator specifically designed in Stainless Steel for the harsh salt environment of sea going craft. This is needed for the Gaslow Boat Locker due to the 90 degree outlet nozzle which screws directly onto the rubber hose supplied with the locker. It is also fitted with a Gaslow so you can leak test the complete gas system and it will show when gas is running low. Without a locker you will need an 01-3110.

Low pressure regulator specifically designed in Stainless Steel for the harsh salt environment of sea going craft. This is needed for the Gaslow Boat Locker due to the 90 degree outlet nozzle which screws directly onto the rubber hose supplied with the locker. Without a locker you will need an 01-3110.

Low pressure nozzle

01-3111	low pressure nozzle
---------	---------------------

Simply screws onto the Marine regulator allowing you to use standard low pressure hose with a worm drive clip.

Bulk Mounted Marine Regulator

01-3150	8mm copper
01-3155	10mm copper

This two stage bulk mounted regulator is manufactured to EN12864M and has been treated both outside and inside the regulator to help reduce the effects of the harsh salt environment experienced on sea going yachts. Comes complete with a mounting bracket, isolation valve and the Gaslow gauge.

Marine Locker

		A Depth	B. Dia. Ring	C. Dia Locker
01-3000	907 Camping Gas /4.5Kg Calor	381mm	350mm	310mm
01-3002	902 Camping Gas	295mm	350mm	310mm
01-3006	6Kg Propane / 7Kg Butane	534mm	350mm	310mm
01-3013	13Kg Propane / 15Kg Butane	675mm	425mm	390mm

Replacement Locker Lids

01-3300	310mm Lid
01-3350	390mm Lid
