POWER EQUIPMENT

Hyundai HY1000Si

The Hyundai HY1000Si is the smallest model of petrol inverter generator in the Hyundai leisure range. The ideal petrol generator to take on your camping, caravanning or boating trips, at only 13kg, it has a lightweight and portable frame that makes this the easiest and most stylish portable generator on the market. At the same time, it provides ample power for all your basic power needs without costing the earth. It runs at a very low noise and has a 1000w maximum output which makes it a very popular choice in the UK leisure generator market.

Specification:

- Max. Output: 1kW/1000w
- Max Continuous Output: 0.95kW/950w
- Power Output: 2hp
- Frequency: 50Hz
- Voltage: 230v
- Current (A): 4.13A Continuous, 4.34A Maximum
- Engine: Hyundai HX53; 2hp Motor, 4-Stroke OHV
- Displacement: 53cc
- Starting Method: Recoil / Pull Start
- Outlets: 1x230v (AC), 1x12V 8.3a (DC)
- Sockets: 1x UK 3-Pin Plug
- Fuel Type: Unleaded Petrol
- Fuel Capacity 2.7 Litres
- Running Time: Up to 7 hours
- ECO-Throttle System
- Low Oil Shut Down
- Noise Level: 58dB @ 7m (with no load)
- Body: 3mm Polypropylene, Blue
- Dimensions: 464 x 278 x 391 mm
- Weight: 13kg
